

Some of the Interview (Exam) Questions for Admission to the Master's Program in "Marine Biodiversity and Bioresources"

Please try to include at least one example in your answers!

1. What is marine biodiversity, and why is it important for the health of the ocean?
2. Can you describe a marine species and how it adapts to its environment?
3. Can you name one important marine area and explain why it's special?
4. Why is having a variety of marine species important for ocean ecosystems?
5. How can genetics help us protect marine life?
6. What is one way we can protect marine species and their habitats?
7. What is the purpose of a marine protected area?
8. Can you name one endangered marine species and describe why it's important?
9. How is climate change affecting marine life?
10. What is one example of an invasive marine species and its impact?
11. What is one method for restoring damaged marine ecosystems?
12. Why are small organisms like plankton important in the ocean?
13. How does marine biodiversity support healthy ecosystems?
14. What is one major threat to coral reefs today?
15. How can we use marine resources without causing harm?
16. What is one recent discovery in marine biology that could benefit people?
17. Why is genetic diversity important in marine species?
18. What is one way human activity harms marine ecosystems?
19. Can you give one example of how marine life has changed over evolutionary time?
20. What is one method scientists use to study marine biodiversity?
21. What is one international project or agreement that helps protect the ocean?
22. What is one thing we should consider when using marine resources?
23. What is one challenge we may face in conserving marine life in the future?
24. Why are ocean resources important for people?
25. How can using marine resources sustainably support the economy?
26. What is one benefit or risk of managing marine resources?
27. How can new technologies help protect marine biodiversity?
28. Why is it important to work together with other countries to protect the ocean?
